

# EAT LOCAL.

Owner Dennis Courtier's parents first planted their land with apple trees in 1949. This excellent site and careful management have allowed the Courtiers and the rest of the **Pepin Heights** family to produce high-quality fruit from those early years to the present day.

**Pepin Heights** takes pride in understanding what today's apple consumers want, whether it be the sweet crunch of a Honey Crisp or the traditional flavor of a Haralson.
